We take your privacy seriously and will only use any personal information that is shared with us for seeding, handicapping & to arrange events that maintain and promote the fellowship we enjoy. Your details may also be shared with safety or rescue organisations if necessary. Further details are available on request

By completing this form, you agree that you take complete responsibility for your own safety and you will follow the rules on the COMPETITION page of the website.

Skiing and in particular racing are inherently dangerous activities. The fact that a course has been set does not mean that it is safe for you to ski down it. Your safety is far more important than any race result. Only you know your own ability and it is YOUR decision and only YOU decide whether it is safe for you to take part or not in the prevailing conditions. The race is set and run by the ESF and you must obey their directions. The organisers are here to promote and coordinate the event and cannot accept any liability for your safety. You must have insurance that includes amateur racing. See the Deals page on the website when active.
